

HIGH-LEVEL GLOBAL SUMMIT 2027

INSTITUTIONAL PARTNERSHIP & COMMERCIAL ARCHITECTURE

Strategic positioning. Strategic engagement. Intelligence. Connection. Global continuity.

BRASÍLIA 2027 → PORTUGAL 2027 → GENEVA 2027

LEGAL, REGULATORY & INSTITUTIONAL NOTICE

The commercial proposition is defined by contract; the institutional perimeter is governed independently.

The High-Level Global Summit is an institutional convening, strategic dialogue, knowledge-exchange and business-engagement platform.

The activities described in this Prospectus are not intended to constitute securities brokerage, placement agency, underwriting, investment advisory, investment recommendation, portfolio management, transaction execution, or an offer or solicitation to buy or sell securities or other financial instruments.

Sponsorship, partnership, exhibition, hospitality and other commercial consideration relate exclusively to the defined event-related rights described in this Prospectus.

No fee described herein is contingent upon, calculated by reference to, or payable as a percentage of capital raised, financing obtained, transaction value, investment completed or other transaction outcome.

Meeting facilitation and business-engagement activities are limited to creating environments in which independent parties may voluntarily engage with one another. No meeting with any particular authority, investor, financial institution, company or delegate is promised or guaranteed.

The Summit and its organisers do not make investment recommendations and do not guarantee investment, financing, governmental support, contracts, partnerships, transactions or other commercial outcomes.

Each participant remains independently responsible for its own legal, regulatory, financial, tax, investment, sanctions, anti-corruption, AML/KYC and other compliance obligations and should obtain appropriately qualified independent professional advice where required.

Any potential investment, financing or transaction arising from relationships established in connection with the Summit shall be evaluated, negotiated and executed independently by the relevant parties and, where applicable, their duly authorised advisers or intermediaries.

Sponsorship or commercial participation confers no influence over the independent programme, speaker selection, governmental protocol, the Emerging Markets Council, the Brasília Declaration, Working Groups, Summit Awards or any other independent institutional determination.

WE CONVENE. WE INFORM. WE FACILITATE DIALOGUE.

We do not intermediate investment decisions or transactions through the activities described in this Prospectus.

Not an event sponsorship. A position inside a strategic architecture.

The commercial proposition is built around relevance, scarcity, qualified relationships and continuity - not the accumulation of promotional benefits.

POSITION

A visible and credible place inside a platform connecting strategic supply security, capital, policy, technology and execution.

STRATEGIC ENGAGEMENT

Institutional environments, hospitality and meeting infrastructure designed for voluntary senior-level engagement - always subject to consent, eligibility and protocol.

CONTINUITY

A commercial pathway from Brasília to Portugal and Geneva, with priority rights and relationship continuity across the cycle.

INTELLIGENCE

Sponsor Insights, strategic briefs, project intelligence and qualified business-dialogue infrastructure.

EXECUTION

Global Deal Exchange, project qualification, mutual-interest facilitation, private dialogue rooms and post-Summit follow-up.

MASTER PRINCIPLE

Commercial participation enables presence in the ecosystem. It never purchases the Summit's judgement.

Critical supply security has become an architecture problem.

Resilience now depends on the alignment of resources, industrial capacity, logistics, technology, sovereign priorities and trusted capital.

SUPPLY

Critical minerals • food & water •
energy • strategic logistics

INDUSTRY

Value chains • processing •
industrialization • strategic
technologies

SOVEREIGNTY

National security • space •
infrastructure • strategic
autonomy

CAPITAL

Project preparation • de-risking •
trusted capital • execution

The Summit is the convening instrument. The Council, Brasília Declaration, Working Groups and global cycle are the institutional legacy.

Trust → Strategy → Execution → Legacy

LAYER	INSTITUTIONAL PURPOSE	COMMERCIAL INTERFACE
DAY 1 • DIPLOMACY & TRUST	Private Leaders Reception + Opening Leaders Dinner	Hospitality and brand presence under protocol
DAY 2 • STRATEGY, POLICY & CAPITAL	Plenaries, roundtables, Strategic Square, Country Platforms	Sponsor Insights, presence, lounges, relationship infrastructure
DAY 3 • EXECUTION & RECOGNITION	Global Deal Exchange, Council, Brasília Declaration, Awards	Deal infrastructure and Awards hospitality
GLOBAL CYCLE	Portugal 2027 + Geneva 2027	Priority, continuity and Global Partner Passport

SEPARATION

Programme authority, protocol, transactions, Council and Awards remain governed by separate firewalls.

The most valuable assets are limited by design - not manufactured by adding more inventory.

1 GLOBAL PRESENTING

The singular commercial position across the Brasília edition.

2 PRINCIPAL

Senior brand authority plus executive content and relationship rights.

4 STRATEGIC

Strategic presence, participation priority and global continuity.

6 PLATINUM

Premium presence and qualified business development.

8 GOLD

Focused institutional visibility and participation in the business-engagement ecosystem.

DISCIPLINE

No open-ended tiers. No price ranges. No automatic sector exclusivity. Every commercial right is finite and contract-defined.

The commercial hierarchy is simple enough to understand in one page.

POSITION	QTY	INVESTMENT	COMMERCIAL CHARACTER
GLOBAL PRESENTING	1	300,000 €	Dominant institutional presence • Strategic Case Forum • Priority+
PRINCIPAL	2	200,000 €	Premium presence • Executive Case Session • Priority
STRATEGIC	4	125,000 €	Amplified presence • business development • global continuity
PLATINUM	6	75,000 €	Premium physical presence • qualified participation
GOLD	8	45,000 €	Focused visibility • Deal Exchange participation

PRICING

Sector exclusivity, when available, is priced separately because it removes competing inventory.

Five forms of value - with tangible rights beneath each.

01	BRAND AUTHORITY	Hierarchy, venue presence, digital visibility, official materials, post-Summit recognition.
02	RELATIONSHIP CAPITAL	Executive credentials, hospitality allocations, lounges and sponsor concierge.
03	STRATEGIC ENGAGEMENT	Meeting facilitation requests, qualified project presentations, Deal Exchange and Strategic Meetings Coordination.
04	STRATEGIC CONTENT	Sponsor Insights for the two senior tiers; research and insight distribution for eligible tiers.
05	GLOBAL CONTINUITY	Priority for Portugal and Geneva plus Global Partner Passport rights.

RIGHTS MATRIX	Detailed quantities, passes, square metres and ancillary inventory are intentionally moved to the Commercial Rights Schedule.
----------------------	---

Thought leadership without purchasing the programme.

The content track is visibly sponsored, separately governed and restricted to the two senior commercial positions.

GLOBAL PRESENTING • STRATEGIC CASE FORUM

45 minutes • proprietary case, research, strategic initiative or technology • moderated Q&A • recording • agenda prominence • post-event distribution.

PRINCIPAL • EXECUTIVE CASE SESSION

30 minutes • senior corporate content • moderated Q&A • recording • sponsored-content placement • post-event distribution.

EDITORIAL FIREWALL

No tier purchases a keynote, plenary seat, panel chair, moderator role or curatorial priority. Sponsor Insights may present institutional perspectives, research, case studies, technologies and corporate initiatives, but do not constitute investment recommendations, securities offerings or solicitation through the Summit.

The value lies in the quality of the environment and the relevance of the counterparties - not in guaranteed meetings.

HOSPITALITY

Opening Leaders Dinner • Capital & Diplomacy Dinner • Leaders/Investors Breakfast • Awards.

LOUNGES

CEO & Leaders • Investor • Government & Diplomatic • bilateral meeting infrastructure.

COORDINATION

Meeting facilitation requests, preparation for mutual-interest dialogue and sponsor relationship coordination.

Eligibility does not create entitlement. A facilitation request does not guarantee a meeting. Hospitality does not confer protocol control.

PROTOCOL

Authorities, tables, speakers, delegations and counterparties remain subject to independent confirmation, protocol and mutual consent.

A structured environment for qualified project presentation, strategic business dialogue and voluntary bilateral engagement.

The Deal Exchange is a consequence of the institutional architecture - not the editorial centre of the Summit.

- 01

PROJECT QUALIFICATION

Projects, capital, technologies and meeting objectives are screened before Brasília.
- 02

QUALIFIED PROJECT PRESENTATION

Qualified opportunities articulate stage, thesis, requirements and desired counterparties.
- 03

MUTUAL-INTEREST FACILITATION

Connections are proposed only where strategic fit and mutual interest exist.
- 04

PRIVATE BILATERAL DIALOGUE

Confidential, protected and pre-arranged bilateral conversations.
- 05

POST-SUMMIT FOLLOW-UP

Voluntary follow-up and coordination between independent parties after the Summit.

NO OUTCOME PROMISE

The Global Deal Exchange does not provide securities brokerage, placement, investment advice, investment recommendation, underwriting, transaction execution or investment solicitation. Any potential transaction is conducted independently by the relevant parties and, where required, their duly authorised professional advisers.

A sovereign-grade environment for investment-promotion narratives, strategic-sector presentation, qualified projects and international business dialogue.

Designed for ministries, investment agencies, embassies, consortia and national platforms.

FLAGSHIP COUNTRY PLATFORM • 175,000 €

- 72 m²

Commercially scarce because each has a real function inside the Summit.

Global Partner Passport

Commercial continuity rights - never governance rights.

BOUNDARY

Future programme, Council, governance and curatorial rights remain independent in every jurisdiction.

Institutional contribution and commercial investment are deliberately separated.

RELATIONSHIP	FINANCIAL FEE	PURPOSE
FOUNDING PARTNER	None	Long-term strategic co-construction
INSTITUTIONAL PARTNER	None	Governments, agencies, multilaterals, chambers and associations
CORPORATE PARTNER	None	Strategic corporate cooperation outside sponsorship rights
KNOWLEDGE & TECHNICAL PARTNER	None	Research, data, legal, engineering, academia and technical capability
MEDIA PARTNER	None	Specialist editorial reach and media collaboration
PHILANTHROPIC PARTNER	None	Mission-aligned institutional support
SUPPORT / IN-KIND	Valued separately	Barter, donations, official suppliers and operational contributions

SEPARATION

An organisation may be both Partner and Sponsor, but only under separate instruments and separate rights.

The commercial architecture is credible because its boundaries are explicit.

JURISDICTION	CONTROLS	COMMERCIAL STATUS
CURATORIAL	Programme, speakers, moderators, roundtables	NOT FOR SALE
PROTOCOL	Authorities, precedence, invitations, diplomatic environments	INDEPENDENT
COMMERCIAL	Sponsorship, presence, Sponsor Insights, hospitality, activations	DEFINED RIGHTS
BUSINESS ENGAGEMENT	Meeting facilitation, qualified project presentations, private dialogue rooms, follow-up	NO GUARANTEED OUTCOME
LEGACY	Council, Declaration, governance, Working Groups	OWN GOVERNANCE
AWARDS	Criteria, nominations, evaluation and decision	INDEPENDENT JUDGEMENT
MASTER RULE	Money buys defined commercial presence - never judgement. The activities described in this Prospectus do not constitute securities intermediation, placement, investment advice or transaction execution by the Summit.	

Their credibility increases the value of the Summit precisely because they cannot be purchased.

EMERGING MARKETS COUNCIL

Membership, observer status, leadership, vote, office, privileged deliberation access and influence over institutional documents are not sponsorship benefits.

SUMMIT AWARDS

Commercial support may fund the ceremony and hospitality. Criteria, eligibility, nominations, evaluation, conflicts and decisions remain with an independent Commission.

Financing the ceremony does not finance the judgement.

REPUTATION

The firewalls are not disclaimers. They are part of the Summit's institutional value proposition.
